## Adhesive solar film for non-navigational windows

Martek Marine Ltd introduces **MARFILM<sup>™</sup>** for non-navigation windows. Ideal for accommodation, communal and passenger areas on board your vessel. It will reduce glare by up to 92% and rejects up to 83% of solar energy, almost entirely eliminating UV radiation.

- **INCREASES COMFORT BY MODERATING TEMPERATURES**
- **EASY TO INSTALL**
- **STOPS REFLECTIONS ON PC SCREENS**
- **REDUCES AIR CONDITIONING COSTS**
- **CLEAR VIEW UNHINDERED BY GLARE**
- **ONE WAY VISION/ INCREASED PRIVACY**
- **ALTERNATIVE TO CURTAINS**
- **ASTHETICALLY PLEASING**
- **FITS ANY SHAPE OF WINDOW**
- **SAME DAY DISPATCH**

**MARFILM<sup>™</sup>** is available in silver or grey 100 micron only. As an option we offer a full installation kit and instruction guide for ease of application.

Solar Engineering Parameter	Grey	Silver
<b>Solar Energy Rejected</b> - % of the sun's energy that is rejected by the glazing system	<b>60</b>	<b>83</b>
<b>Glare Reduction</b> - % reduction in visible light passing through the glazing system	<b>90</b>	<b>92</b>
<b>Visible Light Transmission</b> - % of visible light that passes through the glazing system	<b>9</b>	<b>7</b>
<b>UV Light Transmission</b> - % of UV light that is transmitted by the glazing system	<b>&lt;3</b>	<b>&lt;3</b>
	1. Reduces glare from the sun 2. Suitable for moisture 3. Suitable for cold conditions 4. Easy to install 5. Reduces heat
